

Disagree with ruling to increase percentage ownership telecommunications/6/2/03. Live in area where clear channel communications owns virtually all radio. Only reason I've heard about your vote was because of PBS and NPR. As consumer (whom you supposedly represent) I want variety, as much of it as I can get. Many workers daily watch or listen as working and are not able to get internet for that so called vast variety of news. Media companies are buying up internet news or are webbed-linked already. Stop walmarting our energy, healthcare, stock/finance, now media access. Who is responsible for breaking up monopolies? Is it you? Once we've got a monopoly situation, then break it up, what have we done to all the good little papers, radio stations, independent billboard, performance venues, musicians, news services, etc. that your deregulation has destroyed. Stop it!
